

ADVANTAGES

- Suitable for high humidity applications
- Custom made for any size up to maximum 800mm height and 900mm width
- Available in 25mm, 45mm and 95mm depths
- Light gauge aluminium frame
- Media glued into frame with wire mesh support on air leaving side

Application

Prevention of dust and dirt build up on heating/cooling coils within ventilation systems. Suitable for outdoor air intakes, humid environments or where intermittent exposure to mist or spray may occur. Also suitable for use as a primary filter for non-critical air conditioning applications or as a prefilter to extend the life of a secondary filter.

Frame

Aluminium

Media

Polyester

Max Temperature (°C)

70°C

Installation Options

Universal filter holding frames

Type	EN779	Dimensions WxHxD (mm)	Airflow/pressure drop (m ³ /h/Pa)
PDA2504	G4	594x594x25	3400/95
PDA4504	G4	594x594x45	3400/55
PDA9504	G4	594x594x95	3400/40
